**What do I need to do to be able to watch a Live Web Stream?**  
You will need:

*Internet connection* - We recommend a wired connection with a download bandwidth of at least 700Kbps (0.7Mbps). To test your internet speed, go to [www.speedtest.net](http://www.speedtest.net). Bandwidth fluctuates constantly (especially on WiFi and mobile internet), so running three tests is recommended.

*Web browser* - We recommend that when viewing you use Google Chrome or Mozilla Firefox as a browser - check that the version you are using is up to date.

*Headphones or speakers* - We recommend headphones or external speakers if you are watching on a laptop/computer or tablet (not the internal laptop speakers, these often don't produce enough sound).
